EXPERIENCE

Siemens Digital Industries Software, Fremont, California | Nov '22 - Present **Senior Engineering Services Engineer**

- Technical architect & systems engineering expert for DENSO Corporation's global MBD digital thread transformation, setting integration direction across Polarion ALM, Simcenter Amesim, Simcenter System Architect, and Rhapsody across engineering centers in the US and Japan
- Lead requirements engineer on an aerospace UAV prototype program, applying Harmony MBE methodology in IBM Rhapsody: L0-L2 system architecture, requirements traceability, and function ID linkage between the systems model and controls/simulation teams
- Leading an internal AI-agent tooling initiative for MBSE workflows, driving adoption across the broader organization

Siemens Digital Industries Software, Livonia, Michigan | Feb '18 - Nov '22 **Engineering Services Engineer**

Ford Bronco AWD System — Technical Lead (Testing)

- Designed, developed and implemented advanced All-Wheel-Drive (AWD) controls algorithms from a clean sheet, including software architecture, code generation, integration and testing (MIL/SIL); full product lifecycle development from concept to production using System V-Cycle (requirements, modeling, testing, DVP)
- Collaborated with systems engineers, suppliers, and calibrators to define vehicle, subsystem, and component requirements
- Led client operations as Siemens Engineering Consultant for project planning and effective delivery of software products using Agile methodology

Enterprise Transformation & Powertrain Controls

- Led enterprise MBSE assessment and digital transformation roadmap for a North American automotive client using SAFe methodology
- Led multi-attribute powertrain controls optimization, balancing NVH, efficiency, and drivability trade-offs for HMC's NVH team

Ashok Leyland Ltd., Chennai, India | Aug '14 - June '16

Deputy Manager, Technical Service & Strategy Division

- Diagnosed and resolved recurring failures across diesel engines (160 & 230HP) and 6-/9-speed synchromesh transmission systems through structured root-cause troubleshooting, collaborating with product development and reliability teams on corrective actions
- Spearheaded service strategy & analytics initiatives, developing data-driven models to improve workshop performance across 500+ dealerships nationwide
- Led training initiatives for 150+ service executives nationwide on workshop process improvements to maximize revenue growth

Graduate Engineering Trainee, New Product Development Division

- Designed & implemented P-diagram, interface matrix, Quality Function Deployment (QFD), DFMEA, 3D Modeling & FEA to optimize Class 6 & 7 truck load body
- Applied Lean Six Sigma (LSS) principles to address load body structure issues such as floor sagging, column buckling and tail gate failure in Ashok Leyland BOSS model

EDUCATION

University of Michigan, Ann Arbor, MI

Master of Engineering | Sep '16 - Dec '17
Integrative Systems + Design (ISD), Global Automotive & Manufacturing Engineering
CGPA 3.7/4.0

Anna University, Chennai, India

Bachelor of Engineering | Apr '10 - Apr '14
Mechanical Engineering
CGPA 9.1/10.0

SKILLS

Software & Tools

IBM Rhapsody
Polarion
Simcenter System Architect
Simcenter Amesim
Simcenter Analyst
Capella / SMW
Teamcenter
MATLAB / Simulink / Stateflow
Python

Methods & Practices

Requirements Analysis & Traceability
System Architecture (SysML)
Functional Safety (FHA/FMEA)
ASPICE Compliance
MIL/SIL/HIL Testing
Model Based Design (MBD)
Lean Six Sigma
Agile/Scrum

CERTIFICATIONS

Google Project Management Specialization
Lean Six Sigma Green Belt Training
Certification

AWARDS & LEADERSHIP

Ford Recognition Award | MAR '21

Ford Bronco driveline controls, Ford Motor Company, Michigan

Vice President | SEP '16 - DEC '17

Graduate Student Advisory Committee (GSAC), Integrative Systems + Design, University of Michigan, Ann Arbor

Vice President | JUNE '13 - MAY '14

Society of Automotive Engineers (SAE) College Club, Anna University, Chennai

University Gold Medalist | Class of 2014

Rank 10 (among 7124 candidates), Bachelor of Engineering, Mechanical Engineering, Anna University, Chennai, India
